Parkland School Division 70

Q1 What are some things you appreciate and some concerns you have about your school and/or Parkland School Division this year?

Great teachers. Adjusted well to a crazy situation.

There is a variety of course options for my child. My child is able to receive both the academic and emotional support she needs.

Relevant learning Teaching how to identify false news in social media is important. Thanks for adding that to the lessons

The teachers can be a wee bit tougher on the kids and hold them accountable for their actions. If they mess up there needs to be consequences that mean something to the kids.

Why does PSD 70 not employ a physical therapist beyond early education? Kids with physical disabilities are NOT magically cured once beyond Early Ed. It shouldn't be a hard to get PSD to hire a contracted PT for 1-12 My son's disease is progressive, but PT slows it down from advancing. HELP us!

Communication feels generally open I feel I can contact and have a rapid response to concerns/questions

I appreciate the kindness and effort from all the staff that keeps our children in the classroom

School Environment Helping students through tough times

Concerned that there is a great divide that has been developed between staff members....initiating from Admin. Staff morale is at an all time low...many staff off on stress leave.

How do we retain our top quality teachers? It's the teachers that make the school experience positive or negative. I've seen lots of stress leave, early retirement and moving to other positions. Some of our best teachers/staff need more to keep them from leaving.

Sometimes I feel the students could be challenged more and the teachers could be a little tougher on them. This will help prepare them for life and also push them to reach their potential. Stronger students should have as many resources as weaker ones.

Ranked #41 of 202

I have concerns about the mental health of the kids and what is being done to deal with it. Group info sessions are like sending an email out. Don't feel like students have enough support. It should be the #1 priority during these times. The school has our children 80% of the day

A quality Health & Life Skills program, along with a quality Phys. Ed. program taught by passionate educators is essential to student success. These two subject areas are essential to student development, but all too often are not being taught in a meaningful and enlightening way, if at all.

Concerned about staff morale, it's down a lot. A lot due to Covid restrictions. Staff aren't allowed to visit in the staff room which isn't good. It helps teachers feel supported and not alone and give teachers a break even for 15 min makes a big difference.

I am happy with the quality of administration and staff. The school functions smoothly, particularly during Covid.

I appreciate how hard the teachers are working to make this year as normal as they can for the kids. It is important for their mental health. So much has been taken away or changed for them this year.

I appreciate how well organized the school is and how they are caring towards the children. It's been a hard transitional year for the children and I Am happy how understanding and accommodating the staff are.

I am concerned about teacher workload and teacher burnout. This year has obviously been challenging due to covid-19. Increased supervision, new I.P.P, constantly changing rules, lack of communication ect.

I appreciate how hard the teachers, staff & administration have been working in these unprecedented Covid times. It is important that our children and we as parents feel safe sending our children to school but that their education is still a priority.

I feel both my son's teachers have made an extra effort this year connecting with them
With everything going on in the world the extra effort to connect with my boys has put them a bit more at ease

I'm happy with safety protocols. As far as I know there has only been one positive COVID case at EMHS Our children are safe and others in the community are also safe. I think its important the teachers are recognized for all their efforts.

My only concern is the health and wellbeing of the staff/teachers. Both of my children's teachers have had leave this year. It affects them personally and affects the children. Although resilient, children need structure and reliable contact with their teacher to feel saf

Our school division has obviously put a tremendous amount of effort into being flexible to accommodate the needs of our children during this school yr Its necessary with the huge variety of needs each family has

I am SO appreciative of the amazing staff and admin at our school! I can't describe how much I appreciate them, especially this past year. The school is nothing without them.

I am concerned that teachers are doing double the amount of work for the same pay.

Ability to switch to at home learning when required Keeping the kids learning, so not missing out. Able to connect with teachers via google meet has been huge help

How are indigenous world views being incorporated into learning environments and routines?

Our rural bus route is unreasonably long. We live 13km paved hwy away from the school. The bus ride home is almost 1.5 hrs with 2 transfers. The lack of reasonable bus commute means we've had to drive our young children each day for kinder and grade 1. It impacts our work and finances.

Snow Days / Content Student who make it to school on days where transportation is cancelled, should not "suffer" compare to students who do not come to school

The teachers are amazing Our kids love going to school

I appreciate that although things look different this year, the staff have implemented a consistent routine. It's important for kids to know what's coming, even knowing where they will play at recess tomorrow gives the structure that they crave.

I appreciate that buses are cancelled the day before giving parents time to organize for the next day

It's good to see that in some schools, Health/LifeSkills is taken VERY seriously and taught thoroughly. This needs to happen with ALL schools. Many of the social/behavioural concerns that are brought up by staff and families are directly linked to the Health & Life Skills curriculum.

Our children's bus ride is fairly short. They don't spend hours a day riding the bus ... yet. Unfortunately next year our oldest will be commuting 180 km / day.

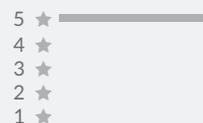

Some of our teachers are exceptional for both academically and socially. They know our daughters strengths and weaknesses and challenge them. They also ensure we are aware of any concerns including mental health.

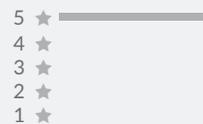

I love that the school is available close to home in our small community. We know the families our children go to school with which adds an element of connection and safety and brings the community together. Good for covid.

Staff is really friendly and compassionate
Open communication and compassion is very important

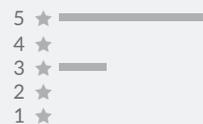

Covid has been a major interruption, HUGE thank you to all school staff...teachers, support staff, custodians!!!

I feel that Memorial is still the great school it was when my oldest started there. My youngest is there currently, and there are no issues.

Our daughter loves her experience at meridian

We are blessed with a great school community of support

Improve the play based leading curriculum

Concerns over the large learning gap from kindergarten to grade 1

Appreciate the communication from classroom to home in Grade 1

I feel like the transparent and communication helps me reiterate material at home to help foster their education. Could be done better in kinder

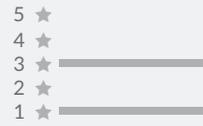

Appreciate the collective team that has supported my child at school

My son has anxiety and it takes grace and compassion to support him and we have that at Muir Lake

I would like to see less torch time maybe throughout the week.

I appreciate Torch time, however with only 2 classes, there is too much time for extra collaboration. Is there a way to condense it to 3 days a week?

The quarter system is amazing I think that the quarter system has been beneficial to students as they are able to concentrate on 1 or 2 cores rather than 3 or 4.

I really appreciate the communication that is available between parents and Administration.

Communication is key as a parent with a student in grade 10. The high school environment is so new to families, and MCHS has made the transition easy

I appreciate the ability to work from home without hassle during Learning at Home portions of the last year. This ability allowed me to balance my concerns for my and my family's health with my work as an online educator this past year.

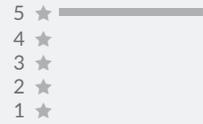

Gradebook this year was not necessary

High school assessment needs to be looked at

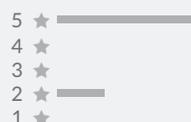

Every class and teacher assesses totally differently making it hard for students to best plan how to succeed

Because of Covid-19 some students are falling behind on core skills. How can I be reassured that this is being addressed? My child is three years behind in reading, & just recently by my request, is on an IP program. Are kids like her actively getting tested and helped?

There needs to be more access for parents to request disability testing for their child. I didn't even know how to go about this and then I got questioned about the need for it when a psychologist recommended testing.

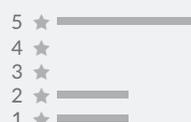

For the past few years, I feel like Muir Lake's reputation of being a great, community based school has been sliding. The sense of community and connection is everything, especially in today's world.

Both the prinical and vice-principal are doing a fantastic job with school upgrades and future planning. The school is looking a lot better. Kids need to feel like their school compares to others and that it is an important place to be.

Teachers have been decent in class at the high school, however they turn so negative in the halls and lunch area. It's important for teachers & staff to not constantly nag at students as to where they eat and how they eat. It's a very negative atmosphere.

I appreciate the support from our administration at our school when dealing with difficult situations. We are lucky to have strong leadership who have high expectations for students and guardians and how they treat our staff.

Funding for small schools There seems to be inequality in resources and technology between the divisions larger and smaller schools.

School cleanliness Our school Custodians are outstanding with keeping up with all of the additional Covid cleaning on top of their regular duties.

More one on one for students in class who need more attention and to help keep them from outbursts and inappropriate behaviour toward others There are some students who don't have the appropriate skills to be in a classroom without adequate observation compared to others.

There are not enough supervisors outdoors during recess in ratio to students My son and other students have been bullied by a particular student during recess because no one is there to watch them properly, unacceptable.

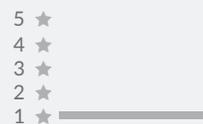

Mental health supports Much of what's available is DIY. Can we create an online PSD mental health group or something?

Good community spirit at school Muir Lake in the past offered a welcome BBQ, organized event days like wear your jersey day, etc, offers school merchandise.

I really appreciate the communication received from Prescott, from both the school and teachers. When you are aware of the goings on and what your children are learning that week, it opens up the lines of communication with your children.
